

LAZER Sunlite

complete
\$499

Combination Light Source and Curing Light ... For About the Cost of a Curing Light Alone!

The SunliteLAZER system makes so much sense that it is truly revolutionary. The ultra-small power pack will run two fiber optic handpieces of any brand ... even two different brands on the same unit! PLUS, you get a powerful, rapid cure LED curing light that feels like a handpiece, conveniently stores on your dental unit and is controlled using your foot pedal ... just the way you like to work. What could be more natural?

SunliteLAZER is always at your fingertips ... right in front of you on your delivery unit, where it belongs. You will never have to search for it, worry about low battery power or find some space on your cluttered counter top.

SunliteLAZER is supplied with a built-in variable output handpiece light source, LED curing light and your choice of tubing style ... ALL for about the cost of a curing light alone !!

- * Costs less than most curing lights
- * Installs directly onto dental unit
- * Brilliant light for any handpiece
- * Powerful rapid cure LED optics
- * Operates with unit foot control
- * Completely autoclavable
- * Audible 10 second timing tone
